

## **SINGLE VISION PRESCRIPTION LENSES**

Vision difficulties can cause many health problems, so it is important to establish the appropriate diopter in time.

Standard and traditional prescription lenses made with high precision technology. They are available in a wide assortment of materials and power range. They can be enriched with premium protective coatings and made according to special requirements.

Single vision prescription lenses can be made in two standard designs: **Spherical** and **Aspherical**.

**Spherical**  
image distortion  
around the lens edges

**Aspherical**  
without image distortions  
around the lens edges
